HARVARD UNIVERSITY
Summer Program in Mind/Brain Sciences
at the University of Trento, Italy

To apply, please submit:

1). Application form
2). Transcript of grades
3). Personal statement (in English)
4). Two letters of recommendation from academic instructors or advisors (in English)

Deadline: March 15, 2010

Admission applications must be submitted via e-mail to cognelab@wjh.harvard.edu.

To be considered for financial aid, you must also submit an ISEE declaration and a completed copy of the second page of your application form directly to the University of Trento via fax (+39 0464 808690). For more information about cost and financial aid, visit our website.

Questions? Need an Application?
Please visit our program website, send an e-mail (HSS@cimec.unitn.it), or call us at +39 0464 808617.

This 8-week program provides students with a unique opportunity to study the mind/brain. Taught by faculty from Harvard University and the Center for Mind/Brain Sciences (CIMeC), University of Trento, the courses include lectures and hands-on laboratory sessions (e.g., neuroimaging demonstrations). Students take a 4-week introductory course (MBB S-101) and then choose from two in-depth courses (MBB S-91 or MBB S-92) offered in the second half of the program. Instruction is in English.

The program includes activities such as hikes in the Alps, boating on Lake Garda, and trips to Venice and Verona. American and Italian students will room together in university dormitories. Italian students enrolled in the program will receive course credit from the Harvard Summer School.

MBB S-101. Windows into the Structure of the Mind/Brain
Richard Born (Harvard Medical School), Alfonso Caramazza (Harvard University; University of Trento), and Albert Galaburda (Harvard Medical School)

MBB S-91. What Art Can Tell Us about the Brain
Bevil Conway (Wellesley) and Margaret Livingstone (Harvard Medical School)

MBB S-92. Visual Neuroscience: From Sensory Input to Cognition
John Assad and Moshe Bar (Harvard Medical School)
