HARVARD UNIVERSITY

Summer Program 2015 in Mind/Brain Sciences at the University of Trento, Italy

This interdisciplinary program at the Center for Mind/Brain Sciences (CIMEC), University of Trento, Italy, provides students a unique opportunity to study the mind/brain.

Taught by neuroscientists and cognitive scientists from Harvard University, Harvard Medical School (U.S.A.), University of Trento (ITALY) and Bangor University (UK), the courses include lectures, field trips and hands-on laboratory sessions (e.g., neuroimaging demonstrations) and discussion sections. Students will also have the opportunity to participate in talks and presentations organized at the Research Centre.

Participants can choose to attend the entire program of two courses, or just one of the two courses. For information about prerequisites, see notice. Students will receive course credit from the Harvard Summer School - an official transcript of their grades will be provided.

All instructions is in English. The tuition fee includes course materials, bus transportation during the program, accommodation, meals and activities. Financial aid is available.

MBB S-101

Windows into the Structure of the Mind/Brain

MBB S-97

The Evolutionary and Developmental Origins of Cognition

MBB S - 96

The Social Brain
