

## What is an Aperitivo Neuroscientifico?

- The experts The experts of the Aperitivi neuroscientifici of the CIMeC are researchers of the Center.

- **Who are they for?** In an informal environment like the in the “Le Arti” caffè of the MART, far away from an academic environment, students of all grades and areas, scientists and citizens interested in the proposed topics will be able to discuss freely in front of a drink. It is unnecessary that one be particularly knowledgeable in order to participate at the Aperitivi, that are open to all and which pur pose is to promote and divulge scientific knowledge.

- **What happens?** An Aperitivo neuroscientifico is not a conference where the expert speaks and the audience listens. The guest speaker briefly presents the topic of the Aperitivo (as is in the program) and – after a short pause in order to fill up glasses and plates – the open public debate unfolds. The expert answers questions, responds to doubts and curiosities, basically to a series of questions and answers that give way to a general discussion at which all are invited to participate.

- **When and where?** The four Aperitivi neuroscientifici will take place on Thursdays at 6PM at the “Le Arti” Caffè of the Mart, in Corso Bettini 43, Rovereto

- **How does one prepare for it?** Whomever wants to know more about the particular argument chosen for Aperitivo neuroscientifico may download literature from the webpage [www.cimec.unitn.it/aperitivi](http://www.cimec.unitn.it/aperitivi)

- **Way to participate** Entrance to the “Aperitivi neuroscientifici” is free. The buffet is offered by the CIMeC; those attending may purchase their own drinks. Guests are not paid for the event, but accept to speak out of free will.
