*Questions? Need an Application? Visit our program website, email us ([trento@wjh.harvard.edu](mailto:trento@wjh.harvard.edu)) or call 39.0464.808617*

This 8-week program provides students with a unique opportunity to study the mind/brain. Taught by faculty from Harvard University and the Center for Mind/Brain Sciences (CIMEC) at the University of Trento, the courses include lectures, and hands-on laboratory sessions (e.g., neuroimaging demonstrations). Students take an introductory 4-week course (MBB S-101) and then choose from two in-depth courses (MBB S-93 or MBB S-95), offered in the second half of the program. All instruction is in English.

The program includes activities such as hikes in the Alps, day and weekend trips to Verona, Lake Garda, Venice and Florence. American and Italian students will live together in university dormitories. Students enrolled in the course will receive course credit through the Harvard Summer School.

**MBB S-101 – Windows into the Structure of the Mind/Brain**

**MBB S-93 – Mind, Brain and Behavior in Decision Making**

**MBB S-95 – Cutting Edge Neuroscience in Film and TV**
